

Moreton Bay Research Station (MBRS) Register of Regulations

1. Objectives

- Identify relevant legislation, regulations and standards pertaining to The University of Queensland activities; and
- Maintain a Register of Regulations.

2. Scope

The scope of the Register of Regulations is limited to the following environmental areas:

- Solid and Hazardous Wastes;
- Environmental Noise;
- Air Quality;
- Energy;
- Water; and
- Land.

3. Preparation

The Property and Facilities Division, Sustainability Office, is responsible for the preparation and maintenance of the Register of Regulations.

4. Custody

The Register of Regulations is prepared by Sustainability Office, Property and Facilities Division. The register is located at:

- Property and Facilities Division computer network under the {G:\!Operations\!Environment\EmsRegisters\EmsRegsRegisters} directory;

5. Reviews

The Register of Regulations shall be reviewed continuously as follows:

- Sustainability Office, Property and Facilities Division, is responsible for reviewing the register;
- The review process will be undertaken on an annual basis with relevant authorities and agencies, in the first half of each year, or as necessary.
