## ENVIRONMENTAL MANAGEMENT REGISTER (EMR) CONTAMINATED LAND REGISTER (CLR)

Transaction ID: 49401419 EMR Site Id: 122388 06 November

2013

This response relates to a search request received for the site:

Lot: 3 Plan: RP60248

This response relates to a search request received for the site:

Lot: 3 Plan: RP60248

Address: 14 ORMOND TERRACE

INDOOROOPILLY QLD 4068

The site has been subject to the following Notifiable Activity pursuant to section 374 of the *Environmental Protection Act 1994*.

#### MINE WASTES -

(a) storing hazardous mine or exploration wastes, including, for example, tailings dams, overburden or waste rock dumps containing hazardous contaminants; or

(b) exploring for, or mining or processing, minerals in a way that exposes faces, or releases groundwater, containing hazardous contaminants.

While sites are listed on the EMR using the lot and plan description, a mining lease may affect only a limited area of the lot. In many instances with rural properties, only a small area may be potentially affected by the mining activities and the ongoing landuse is unaffected. More detailed information relating to the location of the mining activities may be held by the Department of Environment and Resource Management or the Department of Employment, Economic Development and Innovation.

#### ELEVATED LEVELS OF LEAD AND MATERIALS CONSISTENT WITH MINING WASTE

#### **CLR RESULT**

The above site is NOT included on the Contaminated Land Register.

#### ADDITIONAL ADVICE

From the 18th October 2013, the price of an EMR/CLR search will increase to \$43.00 per lot for internet based searches and \$50.55 per lot for EMR/CLR searches done by means other than the internet.

The above site is NOT included on the Contaminated Land Register.

#### ADDITIONAL ADVICE

From the 18th October 2013, the price of an EMR/CLR search will increase to \$43.00 per lot for internet based searches and \$50.55 per lot for EMR/CLR searches done by means other than the internet.

If you have any queries in relation to this search please phone 13QGOV (13 74 68)

#### **SEARCH RESPONSE**

# ENVIRONMENTAL MANAGEMENT REGISTER (EMR) CONTAMINATED LAND REGISTER (CLR)

Transaction ID: 49511926 EMR Site Id: 122399 26 February

2014

This response relates to a search request received for the site:

Lot: 40 Plan: RP23699

This response relates to a search request received for the site:

Lot: 40 Plan: RP23699

Address: 14 ORMOND TERRACE

INDOOROOPILLY QLD 4068

The site has been subject to the following Notifiable Activity pursuant to section 374 of the *Environmental Protection Act 1994*.

MINE WASTES -

(a) storing hazardous mine or exploration wastes, including, for example, tailings dams, overburden or waste rock dumps containing hazardous contaminants; or

(b) exploring for, or mining or processing, minerals in a way that exposes faces, or releases groundwater, containing hazardous contaminants.

While sites are listed on the EMR using the lot and plan description, a mining lease may affect only a limited area of the lot. In many instances with rural properties, only a small area may be potentially affected by the mining activities and the ongoing landuse is unaffected. More detailed information relating to the location of the mining activities may be held by the Department of Environment and Resource Management or the Department of Employment, Economic Development and Innovation.

#### ELEVATED LEVELS OF LEAD AND MATERIALS CONSISTANT WITH MINING WASTE

#### **CLR RESULT**

The above site is NOT included on the Contaminated Land Register.

#### ADDITIONAL ADVICE

From the 18th October 2013, the price of an EMR/CLR search will increase to \$43.00 per lot for internet based searches and \$50.55 per lot for EMR/CLR searches done by means other than the internet.

Appendix F C.J. Connell (Registrar) Letter

# University of Queensland

ST. LUCIA, BRISBANE

PFF/BN

18th June, 1959.

The Under-Secretary, Dept. of Public Works, Treasury Buildings, Queen Street, BRISBANE.

Dear Sir.

Man behind file

# University Experimental Mine Crushing Plant Building.

As an essential adjunct to the Pilot Plant now being As an essential adjunct to the Pilot Plant now being proceeded with at the University Experimental Mine for the semi-industrial investigation of refractory uranium ores from North-Queensland, a small building to house the crushing plant is required. In order that the dust from uranium-bearing ores shall not contaminate the Pilot Plant building proper, a separate crushing house is necessary. I enclose herewith line drawings of the proposed building.

This building need be of but simple wooden construction, unlined internally, and merely roofed and sheeted externally with corrugated galvanised iron. A site has already been selected; this site was that formerly occupied by a similar building when the University Experimental Mine was itself a producer of ores for treatment many years ago. The site is, therefore, already prepared and is, for the most part, concreted; the only additional concrete floor required is an area of approximately 15' x 11'.

The importance of this work is explained in the attached memorandum from the Professor of Mining and Metallurgical Engineering, and in view of the University's commitments it is requested that construction of the Crushing Plant Building be carried out concurrently with other work on the Pilot Plant Building as a complete project.

Yours faithfully,

(C. J. Connell) Registrar.
