

St Lucia campus Clinical and Related Waste Work Instruction

1. Work Instruction Scope

This work instruction supports the University of Queensland Clinical and Related Waste Operating Procedure and applies to the St Lucia campus.

2. Collection for disposal

2.1 *Bins and Locks*

- All Clinical and Related waste is collected for disposal in yellow 240 litre wheelie bins.
- Yellow 240 litre wheelie bins and locks can be obtained by contacting the Cleaning Services, Property and Facilities Division. See Section 3 for contact details.

2.2 *Collection Times*

- Clinical and Related Waste is collected from the St Lucia campus by contractors Monday to Friday.
- Schools and Centres shall lock the yellow, 240 litre bins with the padlocks that are supplied with the bins and take them to the kerbside collection point before 9.15am weekdays.
- Empty replacement bins will be left at the kerbside and shall be collected by school and centres between 11.00am and 12.00noon on the day the bin was placed out.

3. Contacts

Any enquiries regarding Clinical and Related Waste management, contact:
